The *Bank* shall pay out the Security Account interest on funds deposited in the Security Account to the *Customer* once a month by crediting the *Customer's Current Account* opened with the *Bank*.
- B10.4.11.4. The term of the Security Account shall be determined by extending the term of the guarantee or the *Counter Guarantee* issued by *Bank* by the number of days required to make the term of the Security Account longer than that of the guarantee or the *Counter Guarantee* by one *Bank* working day. *Customer* shall be entitled to terminate the Security Account ahead of schedule unilaterally or to request that the amount deposited in the Security Account and the accrued outstanding Security Account interest should be paid out.
- B10.4.11.5. If *Bank* makes full payment of the *Guarantee* in accordance with conditions of the *Guarantee* issued by *Bank* to the beneficiary under the guarantee in accordance with the *Agreement*, *Bank* shall be entitled to terminate the Security Account Agreement ahead of schedule and to transfer the required Security Account amount to the beneficiary under the *Guarantee* unilaterally. No penalty or charge shall be collected for withdrawal of funds from the Security Account ahead of schedule.
- B10.4.11.6. In cases where *Bank* shall make partial payment of the *Guarantee* in accordance with conditions of the *Guarantee* issued by *Bank* to the beneficiary under the *Guarantee* in accordance with the *Agreement*, *Bank* shall be entitled to decrease the Security Account amount by the amount of the *Guarantee* payment and to transfer the same to the beneficiary under the guarantee unilaterally. In such cases after the claimed guarantee amount is paid, the new amount in the Security Account shall be equal to the balance funds available in the Security Account. No penalty or charge shall be collected for partial withdrawal of funds from the Security Account ahead of schedule.
- B10.4.11.7. If *Bank* makes full or partial payment of the guarantee in accordance with conditions of the *Guarantee* issued by *Bank* to the beneficiary under the guarantee in accordance with the *Agreement*, and the currency of the Security Account differs from that of the guarantee payment to be made by *Bank*, then subject to conditions of paragraphs B10.4.11.5 and B10.4.11.6 of the *Terms* above *Bank* shall exchange the required Security Account amount or a part thereof into the currency of the *Guarantee* payment and transfer the resulting amount to the beneficiary under the *Guarantee* on the day of the *Guarantee* payment. *Bank* shall apply a currency exchange rate in accordance with *Bank's* currency exchange rate of the respective currency set on the day of the guarantee payment.

On *Bank's* following working day after expiry of the *Guarantee*, *Bank* shall close the Security Account and transfer funds available in the Security Account and accrued outstanding Security Account interest to *Customer's Current Account* with *Bank* unilaterally, unless *Bank* receives the payment demand of the beneficiary under the *Guarantee*.
- B10.4.12. Where *Bank* decides to enter into the *Agreement* in accordance with the *Application* and a Credit is used for fulfilment of *Customer's* liabilities under the *Agreement*, and the Credit currency coincides with that of the *Guarantee* issued by *Bank*, *Customer* may not use the Credit to the amount equal to the *Guarantee* amount over the period from the moment when the *Guarantee* is issued until the moment of expiry or payment of the *Guarantee*.
- B10.4.13. In cases where the Credit currency does not coincide with that of the *Guarantee* issued by *Bank*, *Customer* may not use the Credit to the amount equal to the *Guarantee* amount plus 15% over the period from the moment when the *Guarantee* is issued until the expiry or payment of the *Guarantee*. To determine the Credit amount that may not be used by *Customer* in accordance with this paragraph, the respective exchange rate set by *Bank* on the day when the *Guarantee* is issued shall be applied. Conditions of this paragraph shall only be applicable to EUR and USD. In cases where the currency of the *Guarantee* or the Credit differs from those mentioned above, *Bank* may apply other conditions and set additional requirements, inter alia, unilaterally determine a different higher Credit amount, that shall not be available to *Customer*.
- B10.4.14. In cases where a Credit to the amount specified in the *Application* is used for fulfilment of *Customer's* liabilities under the *Agreement*, and *Bank* shall make full or partial payment of the *Guarantee* in accordance with conditions of the *Guarantee*, *Bank* shall advance a Credit to the amount of the *Guarantee* payment to *Customer* and transfer the same to the beneficiary under the guarantee, unless the *Parties* agreed otherwise.
- B10.4.15. In cases where the Credit currency differs from that of the guarantee payment to be made by *Bank*, then on the day of the guarantee payment *Bank* shall advance a Credit to the required amount to *Customer*, and exchange the same into the *Guarantee* currency at the respective exchange rate of *Bank* of the respective day to obtain the amount in the *Guarantee* currency required for the *Guarantee* payment. *Bank* shall transfer the amount resulting from such exchange to the beneficiary under the *Guarantee* in accordance with conditions of the *Guarantee*.

B10.4.16. In cases where the Security Account formed from funds available in *Customer's Current Account* is specified as cover of the *Guarantee* in the *Application*, and *Bank* decides to enter into the *Agreement* and the Security Account Agreement in accordance with the *Application*, the *Agreement* and the Security Account Agreement shall be entered into and take effect from the moment when a Security Account is opened for *Customer* and credited with the Security Account amount with the abovementioned conditions.

In cases where the Security Account amount is formed from the advance payment addressed to *Customer*, the *Agreement* and the Security Account Agreement shall be entered into and take effect from the moment when *Bank* issues the *Guarantee* in favour of the beneficiary under the *Guarantee* in accordance with the *Agreement*. In such cases the *Guarantee* issued by *Bank* shall take effect after the Security Account is opened from the received advance payment addressed to *Customer* in accordance with conditions of the Security Account Agreement, unless the *Parties* have agreed on other conditions of the guarantee taking effect. Over the period from the moment when the *Guarantee* is issued until the moment when the Security Account is opened, *Bank* shall block *Customer's Current Account* with *Bank*.

B10.4.17. In cases where the Credit is specified as cover of the *Guarantee* in the *Application*, and *Bank* decides to enter into the *Agreement* in accordance with the *Application*, the *Agreement* shall be entered into and take effect from the moment when all conditions precedent of advancing the Credit have been fulfilled in accordance with the Credit Agreement, except *Bank's* obligation to make the *Guarantee* payment, and *Bank* has issued the *Guarantee* in favour of the beneficiary under the guarantee.

In such case the *Guarantee* shall be issued on conditions mentioned in the separate agreement on issue of the *Guarantee*. Unless such separate agreement on issue of the guarantee is entered into, the *Application* shall not create any *Bank's* rights or obligations against *Customer*. Where a separate agreement on issue of the *Guarantee* is entered into, conditions of such agreement shall incorporate conditions of the *Application* and the *Terms* too, in so far as they are not in conflict with other conditions of the separate agreement on the issuance of the *Guarantee*.

B10.4.19. *Customer* shall be entitled to ask *Bank* to amend the terms of the guarantee and/or cancel the guarantee by submitting to *Bank* an application for amendment of the terms of the *Guarantee* in accordance with *Bank's* requirements.

B10.4.20. If in accordance with *Customer's* application for the amendment of the terms of the *Guarantee* *Customer* asks *Bank* to increase the amount of the *Guarantee*, then *Bank* shall make a decision to increase the amount of the guarantee only after the amount of the Security account is increased for the respective amount, in case where Security Account covers obligations under the *Agreement*, or Credit amount is increased or Security Account is opened, in case where obligations under the *Agreement* are set off against the Credit, or respective amendments are made in the separate *Guarantee* agreement, in case the *Guarantee* is issued without security.

B10.4.22. If *Bank* in accordance with *Customer's* application for amendment of the *Guarantee* decides to reduce the amount of the *Guarantee* and/or the term of the *Guarantee* and/or amend other terms of the *Guarantee*, that jeopardize the position of the beneficiary under the *Guarantee*, then amendments shall take effect from the moment when *Bank* receives respective confirmation of consent / acceptance of the amendments from the beneficiary under the guarantee in accordance with *Bank's* requirements.

B10.4.23. In cases where in accordance with *Customer's* application *Customer* wishes to cancel the *Guarantee*, then the guarantee shall be considered cancelled from the moment *Bank* receives confirmation of cancellation of the *Guarantee* from the beneficiary under the *Guarantee* in accordance with *Bank's* requirements, and the date mentioned of the receipt of the confirmation from the beneficiary under the *Guarantee* shall be the date of the termination of the *Guarantee* in the terms of paragraph B10.4 of the *Terms*.

B10.4.24. All amendments of the *Guarantee* after they duly take effect shall form part of the *Agreement*. Respective terms of issuing of the guarantee in paragraph B10.4 shall apply to the amendments of the *Guarantee* and to corresponding changes in Security Account Agreement and/or Credit Agreement or separate agreement on issuance of the *Guarantee*.

charges shall be imposed upon *Customer*. *Customer* shall also cover any other costs of *Bank* related to entering into the Agreement and issuance of the *Guarantee*.

In cases where a Security Account formed from funds of the advance payment is used for fulfilment of *Customer's* liabilities under the Agreement, *Customer* shall pay a *Charge* for monitoring incoming payments to *Bank* in accordance with the *Rates and Charges* over the period from the moment when the guarantee is issued until the moment when the Security Account is opened.

- B14.4.2. *Customer* agrees that *Bank* and *Broker Company* shall be entitled to use financial instruments owned by *Customer*, including pledging them to any third party.

B14.5. Loan limit

- B14.5.1. The *Loan* limit is a proportional limitation on the available amount of the *Loan* that may be made by *Bank* to *Customer* in accordance with the type of assets available in the financial instruments account, *Precious Metals' Account*, or *Cash Account* pursuant to the *Fees and Charges* or the provisions of section B14.6 below. The allowed limit for every type of assets shall be calculated in accordance with the following formula:

$$KL = \sum_{i=1}^M \frac{TC_i \times (100\% - INITL)}{100\%}$$

where:

KL – *Loan* limit;

TC_i - market value of the *ith* asset type that relates to a specific type of financial instruments or the amount of the funds balance in the *Cash Account*;

INITL - initial margin amount in percentage terms, determined for a specific type of assets;

M – number of asset types that serve as the *Loan* collateral.

For the purposes of calculating the *Loan* limit, the *Parties* by market value of financial instruments and *Precious Metals* understand market value of financial instruments and *Precious Metals* as of the current *Bank* day. In case the *Customer* holds several asset types (financial instruments, *Precious Metals*, or funds), overall *Loan* limit shall be equal to the total of limits allowed for each asset type.

In case of *Special Financing*, for the *Loan* limit calculation only financial instruments held in the *Financial Instruments' Account for Special Financing* shall be taken into account.

- B14.5.2. *Customer* acknowledges and agrees that due to changes in the market value of financial instruments and/or *Precious Metals*, as well as due to currency rate fluctuations, the ratio of the *Loan* made and financial instruments, *Precious Metals*, or funds pledged for its collateral may vary. If due to changes in the market value of financial instruments and/or *Precious Metals*, as well as due to currency rate fluctuations, the *Loan* amount (incl. accrued interest) exceeds the *Loan* limit determined by *Bank*, *Customer* is obliged to repay the *Loan* immediately (paragraph B14.8 of the *Terms*) or increase the *Loan* collateral upon approval of the type and amount of such collateral by *Bank*.
- B14.5.3. *Customer* is obliged to follow the market situation and monitor compliance of the *Loan* made thereto with the *Loan* limit determined by *Bank*.
- B14.5.4. Should the *Customer's* collateral appear to be insufficient, i.e. the *Loan* limit be exceeded due to the *Customer's* transactions in financial instruments or *Precious Metals*, changes in the financial instruments' or *Precious Metals'* market value, as well as due to currency rate fluctuations, or default of the *Customer's* obligations, as long as the above situation is present (paragraph B14.5.2 of the *Terms* above) the *Bank* shall calculate the *Loan* interest on the amount above the *Loan* limit applying the interest rate in accordance with the *Fees and Charges*, and the total interest rate under the *Loan* shall be calculated pursuant to paragraph B14.7.3 of the *Terms* below.
- In case of *Special Financing*, the *Loan* interest shall be calculated in accordance with the *Application* provisions.
- B14.5.5. Without prejudice to provisions of paragraph B14.8 of the *Terms* below, where the *Customer's* collateral appears to be insufficient and reaches Stop Loss level in accordance with the *Fees and Charges* or, in case of *Special Financing*, in accordance with provisions of the same due to the *Customer's* transactions in financial instruments or *Precious Metals*, changes in the financial instruments' or *Precious Metals'* market value, as well as due to currency rate fluctuations, or default of the *Customer's* obligations, the *Bank* shall be entitled to unilaterally and without acceptance begin selling financial instruments or *Precious Metals* from any account of the *Customer* with the *Bank* so that the *Loan* amount is reduced to the *Loan* limit amount, observing the current market practice meanwhile (e.g. in terms of minimum number of financial instruments or *Precious Metals* to be sold / purchased in the financial market). Until the *Loan* is reduced to the *Loan* limit, the *Customer* may not give orders to the *Bank*, and the *Bank* shall be entitled not to execute the *Customer's* orders for any operations with the *Customer's* financial instruments.

- B14.5.6. The *Bank* may, but shall not be obliged to, notify the *Customer* about non-compliance with the *Loan* limit. The *Bank* shall notify the *Customer* about the *Loan* limit and its changes by the *Notice* through *Internetbank*.
- B14.5.7. In calculation of the *Loan* limit, *Bank* shall not take into account financial instruments owned by *Customer* and transferred to asset management joint stock company ABLV Asset Management, IPAS, for management.

B14.6. Special Financing

- B14.6.1. Where the *Customer* wishes to obtain financing against pledge of financial instruments that are not mentioned in the *Rates and Charges* or under the conditions differing from those stated in the *Rates and Charges* (in this section B14 referred to as *Special Financing*), the *Customer* shall be entitled to submit a free-form application for *Special Financing* to the *Bank*. The *Bank* shall inform the *Customer* on the decision made. If the decision is positive, the *Customer* shall submit the application for receipt of the *Special Financing* (in section B14 referred to as the *Application*) to the *Bank* complying with the procedure and form set by the *Bank*. All material conditions of the *Special Financing*, including, without limitation, the conditions of calculating the *Loan* limit, the rate of interest for using the *Loan*, the amount of the rate of interest to be applied in case of exceeding the *Loan* limit, the Stop Loss situation level, etc., shall be stated in the *Application*.
- B14.6.2. The *Bank* shall inform the *Customer* on, and the *Customer* shall pay the *Bank*, the charge for reviewing the *Application*. After the charge is paid, the respective financial instruments shall be transferred to the financial instruments' account for special financing (hereinafter referred to as the *Financial Instruments' Account for Special Financing*). Besides the *Financial Instruments' Account for Special Financing*, cash account (hereinafter referred to as the *Cash Account for Special Financing*) shall be opened for the *Customer*. The payments for the *Special Financing* financial instruments (dividends, interest and other payments calculated by the issuer) shall be credited to the *Cash Account for Special Financing*. The *Bank* shall be entitled to withhold all *Charges* related to financial instruments held in the *Financial Instruments' Account for Special Financing* from any account of the *Customer* without acceptance, but shall first withhold those from the *Cash Account for Special Financing*, increasing the *Loan* limit.
- B14.6.3. The *Loan* granted as a result of the *Special Financing* shall be debited from the *Cash Account for Special Financing* and credited to the *Cash Account*.
- B14.6.4. In case of any discrepancy between provisions of these *Terms* and provisions stated in the *Application*, the latter shall prevail.

B14.7. Interest

- B14.7.1. *Customer* shall pay interest for use of the *Loan* to *Bank*.
- B14.7.2. *Bank* shall state minimum interest rates in its *Rates and Charges*. The minimum interest rate shall be valid on the date of the *Loan* disbursement and on the following *Bank* day, the interest rate for the subsequent period to be set in accordance with the following *Conditions*. In case the granted *Loan* is secured only with the *Customer's* future funds, the collateral amount being equal to or exceeding the *Loan* made, the minimum interest rate shall be effective throughout the whole period of using the *Loan* before respective funds are credited to the cash account.

In case of *Special Financing*, the minimum interest rate shall not be set.

- B14.7.3. For the purposes of setting the *Loan* interest rate it is assumed that as the *Loan* collateral shall serve assets (financial instruments, *Precious Metals*, or funds) of such type whose interest rate is most beneficial for *Customer*, i.e.:
- first of all, *Customer* shall be issued the allowed *Loan* limit against a pledge of financial instruments of the type with the lowest interest rate set;
 - secondly – against pledge of the *Precious Metals* (following the provision that the respective type of the *Precious Metals* is chosen based on the market value of the same, in descending order, from the highest to the lowest);
 - thirdly – against pledge of funds available in the *Cash Account*.

Should the actual *Loan* amount exceed the *Loan* limit determined in accordance with paragraph B14.5 of the *Terms* above, the fixed interest rate set in the *Fees and Charges* shall be applied to the amount above the total *Loan* limit, without evaluating the types of assets that are used as the *Loan* collateral. The *Loan* interest rate shall be calculated as the average weighted rate of the abovementioned asset types according to the following formula:

$$L = \frac{\sum_{i=1}^N (Lm_i \times KL_i)}{KFK}$$

where:

L – Loan interest rate (%);

Lm_i – Loan rate for i^{th} type of assets or the fixed rate in case actual Loan amount exceeds the Loan limit (%), which is stated in the Fees and Charges;

KL_i – Loan limit or the Loan amount exceeding the Loan limit (pursuant to paragraph B14.5 of the Terms above) for i^{th} type of assets. In case where the actual Loan amount for the i^{th} type of assets is less than the Loan limit, the actual Loan amount shall be applied instead of the Loan limit;

KFK – total actual Loan amount;

N – number of types of assets that serve as the Loan collateral (sentence 1 of paragraph B14.7.3 of the Terms).

For the purposes of calculation of the Loan interest rate, the Parties understand the market value of financial instruments and the Precious Metals as of the current Bank day.

In case of Special Financing, the Loan interest shall be calculated in accordance with the Application provisions.

- B14.7.4. Due to the changes in the market value of financial instruments and/or Precious Metals, as well as due to currency rate fluctuations, the ratio of the Loan made and assets pledged for its collateral may vary, at the same time due to changes in the market value of financial instruments and/or Precious Metals, as well as due to currency rate fluctuations, the Loan interest rate may change as well. Bank shall notify Customer about gross margin of the Loan interest rate and its changes by Notice through Internetbank. Customer is obliged to follow changes in the variable rate of the Loan interest rate independently and make the relevant individual enquiries with Bank or broker company. The interest rate calculated on the relevant date shall apply in cases where it differs from the Loan interest rate applied on the previous Bank day by at least 0.1 percentage point.
- B14.7.5. In calculation of the Loan interest, Bank shall not take into account financial instruments owned by Customer and transferred to asset management joint stock company ABLV Asset Management, IPAS, for management.
- B14.7.6. Interest shall be accrued on the Loan amount actually used, and the term of paying the interest shall be the last day of each month.
- B14.7.7. The interest for using the Loan for one day shall be calculated assuming that a year is comprised of 360 days, and this interest shall be charged for each calendar day of using the Loan (Actual/360). The days when the Loan is granted (issued) and repaid shall be considered as one day.

B14.8. Loan period and repayment

B14.8.1. The Customer shall repay the Loan and make all payments due under it:

In case of Special Financing, the Customer shall repay the Loan in accordance with the payment terms stated in the Application.

The Parties agree that, regardless of the Loan repayment period, funds in the Loan currency credited to the Cash Account shall be applied towards repayment of the Loan on the day of crediting the funds, without special order from the Customer and request from the Bank. The Bank shall be entitled, without obligation, to exchange required amount of funds available in the Cash Account into the Loan currency at the exchange rate set by the Bank and to apply such exchanged funds towards repayment of the Loan, also before the day of the Loan repayment.

In case amount of funds credited to the cash account exceeds the issued Loan amount, the Bank shall apply funds towards repayment of the accrued Loan interest also before the date on which interest is due.

- B14.8.2. Upon expiration of the Loan period or occurrence of any event mentioned in paragraph B14.8.1 of the Terms, Customer shall repay the amount of the received Loan and all related payments (interest, Charges) until the close of the current Bank day (before 18:00 Latvian time).
